REPORT OF COMMITTEE ON TOWN LIBRARY

Although our income from both town appropriation and trust funds has been considerably less this year than usual, we have been fortunate in having no extensive repairs or expenses, so have been able to make a fair showing of new books.

Our cash balance is larger than is usual at the end of the year, because the invoices for new books ordered, have not reached us at the time this report goes to print.

The circulation of books for 1932 was 9,937, and of magazines, 679. This is an increase of 806 and 119 respectively over last year.

Of non-fiction books 1,188 have been taken out.

Circulation at North Walpole was 3,264.

The number of new books added was 249 of which 87 were by gift. Books sent to the North Walpole branch are included in this number as also are 62 new books for children.

We wish to thank Mr. Harry S. Van Demark for a fine, large typed, fifteen volume set of Charles Dickens' works, also we acknowledge numerous good books from various sources.

We are benefited this year by the proceeds from a successful evening card party in September, sponsored by ladies interested in the library and given at the Walpole Inn.

The committee wish to thank Mr. and Mrs. Cahalane for the use of the Inn parlors, which added very much to the attractiveness and comfort of the players.

The librarian is pleased to receive titles of desirable new books.

Gifts of books and magazines are always acceptable.

The committee hopes to receive a more liberal appropriation this year to keep up the standard of the library.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Walpole:

I submit herewith my fifth annual report as Superintendent of Schools.

TEACHERS

We were fortunate in having but one change in the teaching staff this year. Mr. Alton Johngren, teacher in the Walpole Junior High School was replaced by Mr. Walter Bernard of Burlington, Vermont. Mr. Bernard is a graduate of Brown University, class of 1924.

An increase in the number of pupils in the two lower grade rooms in Walpole Village has resulted in an enrollment of more than forty in each room. This large enrollment has made efficient teaching difficult. Accordingly it has been necessary to establish another room to accommodate the overflow. The benches were moved from the upper floor of the Mechanic Arts building and desks set up there. Ten pupils from grade two and ten from grade three were transferred to this room. The room is well lighted and heated and is satisfactory in every respect. The teacher is Miss Mary P. Bain, of Walpole, Keene Normal school, 1931.

BUILDINGS AND EQUIPMENT

Several of the rooms at North Walpole and the school room at Drewsville were refinished during the past summer.

A new blackboard was installed at the Christian Hollow school.

The roof at the Number 14 school has been shingled.

FINANCES

Below is a tabulation of the amounts required for the School Board's estimates for the years 1929-30 to 1933-34, inclusive, with the estimated income from sources other than taxation and the assessment required to balance the budget. The

last-named amount is the difference between the total amount and the estimated income. The estimated income was derived from State Aid, Smith-Hughes fund, tuition paid to the district, and estimated balance at the end of the year.

Year	Total amount of budget	Estimated income from sources other than taxation	Amount raised by district
1929-30	\$51,639.00	\$11,200.00	\$40,439.00
1930-31	61,970.00	6,633.06	55,336.94
1931-32	52,234.00	4,203.80	48,030.20
1932-33	51,779.00	10,353.00	41,426.00
1933-34	50,951.00	4,021.67	46,929.33

A comparison of these figures shows the estimated expenditures for the coming year to be \$828.00 less than for 1932-33; \$1,283.00 less than for 1931-32; \$11,019.00 less than for 1930-31; and \$688.00 less than for 1929-30. The estimated income for next year is less than that of any of the four preceding years. This is due to a quite steady decrease in the amount of State Aid, and, as compared with the present school year, to the fact that no appreciable balance at the end of this school year is anticipated. Accordingly the amount required to be assessed for next year is proportionately larger than that for the present year.

In planning future expenditures the School Board has observed every possible economy, except such as it feels will lessen the efficiency of the schools.

HOT LUNCHESES

As in previous years hot lunches are being served during the winter months at the Walpole Village school. These are prepared and distributed by the girls of the Home Economics classes and supply a hot nourishing dish to supplement the lunch brought from home.

Milk is also given to some of the children at the other schools. This has been made possible through the kindness of various individuals and organizations.

I wish to acknowledge with appreciation the cooperation of citizens, members of the School Board and teachers.

Respectfully submitted,

LAURENCE O. THOMPSON,
Superintendent of Schools.

REPORT OF THE HEADMASTER WALPOLE HIGH SCHOOL

Mr. Laurence O. Thompson,
Superintendent of Schools,
Walpole, N. H.

Dear Sir:

I herewith submit my annual report as headmaster of Walpole High School.

REGISTRATION

Compiled from a summary of the school registers for the first twenty weeks of school, 1932-1933.

	Senior High	Junior High
Number of pupils enrolled,	69	36
Boys,	38	24
Girls,	31	12
Number of pupils withdrawn or transferred,	3	3
Present enrollment,	66	33
Number of instances of tardiness,	11	4
Number of pupils not absent or tardy,	20	7
Percentage of attendance,	97.33	95.75
Number of visits by citizens and others,	28	3
Non-resident enrollment,	13	3

The attendance record of both schools was seriously affected by the epidemic of grippe. In the senior high school the aggregate number of days lost during the last four weeks was only two less than for the entire sixteen weeks preceding. As a consequence of our excellent record during the earlier weeks of the year, our average for the twenty week period is not below the usual state honor roll standard. The school year 1931-1932 marked the third consecutive year that the school has been on the state honor roll for excellence in its attendance record. For six consecutive years a place on the honor roll for a low record of tardiness has been maintained.

SCHOLARSHIP

The standard of scholarship in general is good. Our pupils are, for the most part, conscientious in preparing their assignments. Provision is made for pupils to make up work missed on account of absence. The teachers are at all times glad to assist pupils who are experiencing difficulty with their work. Our success in preparing for post-secondary schools has been maintained. In comparison with twenty-six schools with enrollments from 61 to 100, graduates of Walpole High School rated sixth place. The comparison is made on the basis of work done by the pupils during their first year at post-secondary schools. Walpole's relative position for the last five year period is now five and four-tenths.

During the year 1931-1932 standard tests in intelligence, spelling, and English forms were given by the State Department of Education to the seniors in all high schools of the state. The ratings of our seniors in all three tests exceeded the standard median and the median for the state.

Teams in algebra and spelling represented the school at the Scholarship Day Contests. Twenty-one schools were represented in the contest in algebra and thirty-one schools supplied teams in spelling. The team in algebra placed second and the spelling team nineteenth. It is difficult to select two teams to fairly represent our small class in academic subjects. Some of the pupils on the algebra team were also our best spellers, but each pupil is allowed to participate in only one contest. This year a conflict of this nature will be avoided by sending a team in algebra and one in home economics.

In the statistical report of the State Department for 1931-1932, Walpole High School was commended:

1. For supplying supplementary material of value in connection with the report of the regular work.
2. For supplying detailed reports of work in B and C subjects.

3. For accomplishment in sight and prepared reading in Latin.

The Gilbert Character Cup was awarded last year to Charles Stowell.

ORGANIZATION

The school is especially indebted to Professor Charles T. Copeland for his kindly interest and help in starting our school library. Recent liberal contributions for this purpose have been made by Mrs. Charles H. Schweppe and Mrs. John G. Shedd. There is a growing desire to establish the library in a more definite and permanent form. A library corner or reading room would be a very desirable addition. Our present facilities, however, seem to offer little opportunity for expansion in this direction without affecting other phases of our school organization. May I suggest that this idea be given further consideration and study.

During the past few years, the activities of the school have developed in accordance with a very definite educational objective. The spectacular motives of the past have been gradually replaced by motives of a higher educational order. Each activity sponsored by the school is supervised by members of the teaching staff. The Warbler and activities of the Dramatic Club are very closely associated with the work of the English department. Intramural activities for girls have replaced the interscholastic contests of former years—thus the undesirable features of strenuous athletic competition for girls have been eliminated. This change, which has been effected with very desirable results, was made in accordance with the recommendation of the Women's Division of the National Amateur Federation of America.

School socials and supervised dancing have replaced the public dances formerly run to swell the treasury of some class or organization.

Athletic instruction has been provided for the boys of the upper elementary grades. Other opportunities for instructing

pupils through their activities are provided in the organization of a school orchestra, a quartette, a girls' glee club, the Girls' Outing Club, a French club, and the Blue and White Club.

The school is represented in interscholastic contests by teams in basketball, baseball, and academic subjects.

Assembly programs this year have been of an unusually high order. When not otherwise used, the period is helpful in correlating the work of the several departments of the school.

Faithful and untiring service has been rendered by the members of the teaching staff in the guidance and direction of all social activities. Without exception, this added responsibility has been accepted with enthusiasm.

AGRICULTURE

There are nineteen boys enrolled in the agricultural classes as follows:

Freshmen	5
Sophomores	7
Juniors	3
Seniors	4

Twenty-five to thirty percent of the total time of each class is spent in shop work, where various projects are constructed which relate directly to problems confronting every farmer. Part of the time last year was used in making furniture and changing the small room at the Hooper Building into a suitable library for agricultural books and bulletins.

During the early spring the combined agricultural classes set five thousand four-year-old white pine transplants on the Hooper land. This makes a total of twenty-five thousand trees set by the boys during a period of five years.

During the latter part of August, the State Department of Education and the New Hampshire Chapter of Future Farmers of America sponsored a camp for the vocational agricultural boys of our state. Through the generosity of some of our citizens, Walpole was able to send two representatives to the camp. The purpose of the camp was to give the boys a pleasant time,

an opportunity to meet outstanding boys from other schools, and to educate them in the purpose and possibilities of a Future Farmers of America organization in each school.

Much value was derived from attendance at the Eastern States Exposition this fall. We believe the trip is justified by increased interest in agriculture.

The annual High School Fair was held at the Town Hall October 6, 1932. We appreciate the interest and cooperation of the townspeople who assisted us in many ways to make the fair a success.

The Junior-Senior Class has made a study of concrete construction including form building, reinforcement, mixtures, their proportion and relative strength as governed by the constituents and water ratio. The rebuilding of the drinking fountain offered an excellent opportunity for putting the information to practical use.

Our school was represented at the annual interscholastic judging contest held at the University of New Hampshire. Teams were entered in the following contests: Dairy cattle, livestock, fruit, poultry, wood chopping, and wood identification. Our school, in competition with fourteen other schools, placed in the upper quarter of the group in all contests.

This year we have a new blacksmith shop located on the Hooper estate. This will afford an excellent opportunity for our classes in blacksmithing. At the present time the boys are building benches for this shop. The school orchard, which consists of one hundred twenty-five trees located on the Hooper estate and which is cared for entirely by the boys, is doing exceptionally well.

The project situation for the coming year is very encouraging. Plans now being made indicate that the projects for this summer will be bigger and better than usual.

In behalf of the school, I wish to thank the people of the town who have supported our work and cooperated in making its practical phases more effective.

HOME ECONOMICS

The home economics course offered to the freshmen and sophomore girls this year is Foods and Nutrition. This course teaches the girls by actual experience the value of food selection, preparation, and meal serving. In the fall food preservation is taught and the work is exhibited at the School Fair. Nine girls are enrolled in this course.

There is a series of lessons spent on breakfast, luncheons, and dinners. During the year ten meals are served. A banquet was given to the officers of the Fair Association, and plans are now being made for another to be given for the basketball team.

Home projects closely related to the course are carried on by the girls.

School lunches are served during the winter months by two girls who have chosen this in place of a home project. They serve from thirty to fifty children each day. The menu for the week is placed on the bulletin board in each room, in order that the pupils may know in advance what is to be served each day.

During Christmas week very attractive Christmas boxes were packed with fruit cake and Christmas candy which the girls made in class.

The course given this year to the junior and senior girls is The Family and its Members. The aim of this course is to help the girls acquire an appreciation of the home and family life, so that they may become more efficient and responsible members of the family group and of the community. Sixteen girls are enrolled in this course.

The units studied are family relationships, use of leisure time, community responsibilities, infant and child care and training, home nursing and emergencies, feeding the sick, and vocations for girls. The first four units have been completed. The project method is used a great deal in this course. Home projects closely related to the units are required.

The Junior High girls are given work in sewing and cooking. They learn to use the sewing machine, to make simple garments, to do simple embroidery stitches, and to care for their clothing. These classes are now working on the operetta costumes.

The girls in cooking learn ways of preserving food, methods of preparing and serving simple meals and the great importance which food has on one's health.

I wish to make grateful acknowledgement of the cordial cooperation of the townspeople in making our school work effective. May I also express appreciation to the superintendent, teachers, pupils, and parents for their whole-hearted cooperation.

Respectfully submitted,

CHARLES D. DALZELL,
Headmaster, Walpole High School.

REPORT OF THE HEADMASTER NORTH WALPOLE HIGH SCHOOL

Mr. L. O. Thompson,
Supt. of Schools,
Walpole, N. H.

Dear Sir:

I submit herewith my report on the condition of the North Walpole schools.

ENROLLMENT

We have 242 pupils distributed in ten grades and a Sub-Primary grade. There are 135 boys and 107 girls. In the High School grades, 9 and 10, there are 24 and 19 pupils, respectively.

There has been no change in our teaching staff this year.

ATTENDANCE

Attendance records show a high mark for the year. January was a low record month owing to a large number of absences due to colds and grippe. Absences, to any noticeable extent, are usually credited to a small group. A large percentage of our pupils are regular in attendance.

There has been some decrease in tardy marks. However, as in the case of absences, there is a small group to whom these lapses of punctuality are due. We have sufficient preliminary bells that ought to reduce our tardy marks to a minimum. A study of absences and tardinesses shows a corresponding relation to slow and careless work in school.

DISCIPLINE

Classroom work, on the whole, is conducted under the proper condition of good discipline, an absolute necessity for teaching. We have had a few cases where it was necessary, for the good of the school, to take severe measures. However, in practically all other cases, milder, yet stern, measures are sufficient to make our pupils realize that the business of the school cannot be interfered with by anyone who forgets the first requirement of good conduct.

SCHOLARSHIP

Our teachers are working constantly to bring out the best results from their pupils. Their efforts, I believe, are rewarded with good returns by the majority. Naturally, there are some in each grade with limited abilities who give us concern. However, as this is to be expected, the condition calls for a greater application of teaching ability through individual help and patient work.

Whatever improvement can be brought about for all the pupils through modern methods of teaching carried out by various ways of approach to the child mind, occupies the attention of the teachers. However, we must appeal to the home

to succeed thoroughly in our scholarship aims. Constant supervision should be exercised by the parents.

We have had talks with some parents recently about their children's school work. It is a distinct pleasure to have had these conferences because much good comes from them for all concerned. We welcome these opportunities to talk with parents about the progress of their children in school.

Intelligence tests have been given in Grades 4 to 10. Health examinations also have been given.

Mr. Russell Leavitt, High School Agent, has made his annual inspection of the work in Grades 9 and 10. A favorable report containing some helpful suggestions for further improvement was given.

Out of the 43 pupils in Grades 9 and 10, six are taking Latin. The Bookkeeping class of Grade 10 has begun its work in that subject. Inspection of the pupils' application to this study shows a very pleasing condition.

Current Event talks by our pupils throughout the grades and in the assembly periods of our High School continue as a part of our program. By means of these talks we are striving to train our pupils in correct speech and ability to discuss topics of interest in a capable manner. The results of this work, I believe, are reflected favorably in corresponding work of our pupils in the Bellows Falls High School.

A new encyclopedia of ten volumes has been added to our reference books. We hope to be able to add more books to our reference library soon. We are considering the plan of laying out a library section of reference books for our high school pupils in one of our rooms.

The study of Commercial Accounts has been introduced in the Grade 8 course. The class is interested in the work. A helpful preliminary study to the later Grade 10 Bookkeeping class also is furnished.

Respectfully submitted,

JAMES A. RUSSELL.

REPORT OF SUPERVISOR OF MUSIC

Mr. L. O. Thompson,
Supt. of Schools,
Walpole, N. H.

Dear Sir:

I herewith submit my second annual report of Walpole schools.

It is the aim of the supervisor of music to have every child love and appreciate music.

In the elementary grades the pupils experience music through listening lessons and the singing of songs. They are allowed to express themselves through singing games, folk dances and musical plays. It is in the intermediate grades that we try to teach the child to listen to music harmonically as well as melodically.

In the junior high school at Walpole one half of the music period is devoted to music appreciation and one half to chorus singing.

We have this year organized a girls' quartet in North Walpole and a mixed quartet in Walpole Junior High School.

The Walpole High School quartet and orchestra are holding rehearsals regularly.

The Walpole Girls' Glee Club is preparing an operetta to be given in the spring. They will be assisted by pupils from the elementary and intermediate grades.

I wish to thank the superintendent, principals and teachers for their help and cooperation.

Respectfully submitted,

ALICE W. CURRIER.
